All-Sports Handbook

All-Sports Points Series

The Intramural All-Sports Champion Point Series is for both men and women's teams that wish to compete all year long across a majority of sports. Teams will accumulate points based on participation, regular season, and playoff results. Independent teams can register for the All-Sports race. Greek organizations will be placed into the competition as well. The men's and women's winners of the All-Sports Award will be recognized at the end of year by the intramural department. In addition, each team will receive t-shirts and banner located in the Wellness Center Gym.

Team Regulations

Independent Teams

Independent teams are those who are playing with no Greek affiliation. Independent teams may have Greek players on their team, but the points accrued count towards their respective Greek organization's points race. In order for independent teams to be eligible, they must participate in the majority of events offered throughout the year. They must also keep the same team name across all events, as this is how the intramural staff will track their points. Members of independent teams who participate in individual/dual events will be able to indicate which All-Sports team they are representing at the event check-in.

Greek Teams

Greek teams are those representing the fraternities and sororities recognized by FSC Office of Greek Life. Greek teams may have independent players participate on their team, but over the course of the year, 75% of their intramural roster must be in that organization. For example, if the organization had 100 total participants over the course of the year, at least 75 of them must be in the organization in order to qualify for All-Sports points. Greek teams must participate in the majority of events offered throughout the year. They must also use their Greek organization's name as their team name, as that is how the intramural staff will track their points. Members of Greek teams who participate in individual/dual events will be able to indicate which All-Sports team they are representing at the event check-in.

Number of Teams Allowed

If an organization wants to enter multiple teams into the same league/division, they have that option. In Team League Sports, they may enter two teams into to be eligible towards All-Sports Points competition, but the teams must reflect the organization name. They will receive points for the team who advances the farthest.

In One-Day Event/Team Tournaments, as well as Individual and Dual Tournaments or events, there is no limit on the number of teams entered, and they will receive the points for the team that advances the farthest.

For NIRSA Day, teams will only receive points for a certain number of teams/participants for each event. This number will be announced at a date closer to NIRSA Day.
