Welcome, Moccasins!

On behalf of the Office of Community Living staff at Florida Southern College, we would like to welcome you home. We are so excited you are here and a part of the FSC community!

Living on campus is an integral part of the college experience. We will provide you with a residential environment that is available, ready to listen, and knowledgeable in campus resources.

I encourage you to take advantage of what FSC has to offer. Take part in one of our over 110 student organizations or our countless programs. Attend an athletic event or see a performance. With everything right outside of your door, your FSC experience is yours for the taking.

Residents are also encouraged to reach their highest potential as responsible members of their residential community. Our policies exist to maintain an atmosphere of mutual respect and academic success. Please familiarize yourself with these standards. These policies provide each resident with guidelines and policies to help acquaint you with your residential community.

Here's to a great year - go Mocs!

Residency Requirement

Florida Southern College has a four-year residency requirement. Residents must maintain full-time status to reside in college-owned housing. We recognize that a student should be considered for exemption.

Approved reasons for consideration on an exemption from the residency requirement are:

- To be at least 23 years old prior to the semester you are requesting to live off campus
- To be married or have custodial children
- To live with your custodial relative in their primary residence, within a 30-mile radius of the campus
- Will be a part-time student (less than 12 undergraduate hours) for the remainder of college career
- Have fulfilled the four-year campus residence requirement (all at FSC)

Residents who meet one of the criteria must complete an Off-Campus Request Form available by contacting the Office of Community Living. Any student may complete the form, but must await approval BEFORE signing an off-campus lease. Denial of the off-campus housing request means that residents are still considered a part of the campus residential community and will remain in their campus residential housing.

When residents are assigned, Community Living considers a student's status based on their time removed from high school

graduation and age while at FSC. For example: despite the number of credits an incoming new student has, a student will still be considered a first-year student or “freshman” status and will reside in designated first-year student housing. Similarly, that same first-year student will reside in second-year student housing upon returning to FSC after their first year.

By living in college-owned housing, residents agree to an online housing agreement. This document is a binding agreement between the student and the College. It is the student's responsibility to understand and abide by all terms in the agreement. Housing agreements are effective for one academic year, provided the student has been accepted to the College and has made all payments in full. The housing agreement only assures housing during the period when classes are in session during the fall and spring semester. Summer Housing is a separate application process.

Residents residing in college-owned housing must provide proof of required immunizations or a request to be exempted from them. Any student seeking an exemption on the basis that immunizations would be contrary to religious or personal beliefs should complete the religious or personal exemption form which can be attained at the Student Health Center (SHC) and returned to the same to be maintained on file.

Additionally, campus housing is provided for only full-time registered residents that are at least 17 years of age (unless approval is provided by the Vice President of Student Life or designee). A student who is under the age of 17 years, or who is dropping below full-time hours, must be given permission by the Vice President of Student Life or designee to remain in a campus residential facility.

Conduct standards are in place and if a violation occurs, the student may be removed from campus housing. If the student does not meet the off-campus criteria, the student must withdraw from the institution. To obtain College housing all residents must ensure that all holds are removed from their student account before the housing selection process can be finalized. College residential facilities are limited to single-student housing. The College will not accommodate infants or children.

Should a student's behavior become disruptive to the residential living environment, the College may refuse the student housing in a campus residential facility. The College reserves the right to relocate residents at any point to accommodate its housing needs. Though relocation can take place at any point in the year, the College will work to limit relocations during the housing selection process of the spring and during the summer prior to residents arriving for fall term.

APARTMENT OR HOUSE ELIGIBILITY

As residents progress through their academic careers at Florida Southern College, they may have an opportunity to occupy a college-owned apartment or house. Residents must meet the following requirements in order to be eligible to live in an apartment or house:

- 2.5 cumulative GPA for Garden Apartments, Lake Morton Apartments, Star Apartments, and houses; 2.0 cumulative GPA for all other apartments.
- Second-year residents or Sophomores with at least a 2.0 cumulative GPA are eligible to live in Lake Hollingsworth Apartments and Colony Arms apartments if requested by an upperclassmen student.
- Second-year residents or Sophomores are ineligible to live in Garden Apartments, Star Apartments, Lake Morton Apartments, and houses, except for Hollingsworth Scholars and Honors residents.
- Must be 18 years of age or older.

The College can reassign a student's apartment assignment if the student or residents significantly neglect to clean the apartment or house, fail to follow federal, state, or local laws, fail to follow Florida Southern College policies, or continually cause considerable damage to the apartment or house. Residents who lose the privilege of residing in a campus residential facility because of a campus residential facility probation violation will be unable to remain a student unless they meet the approved reasons for residency exemption.

GENDER-NEUTRAL HOUSING

The College does not currently offer gender-neutral housing in the residence halls.

FAMILY HOUSING

Due to the limited number of bed spaces on-campus, Family Housing is not available for residents. Family Housing entails housing for residents with spouses, children, and/or dependents.

GRADUATE STUDENT HOUSING

Similarly to Family Housing, the limited number of bed spaces on-campus limits the college's ability to house non-undergraduate residents. Graduate student housing is not guaranteed and is based on availability after all undergraduate residents have been assigned.

Due to the timing of the college's housing selection process, information regarding graduate housing availability may not be known until the month leading up to the start of the academic semester. It may be in the best interest of the graduate student to identify alternative housing options for them.

RIGHTS AND RESPONSIBILITIES OF RESIDENTIAL STUDENTS

Renter's insurance is not a requirement for residential living.

There shall be no allowance to residents and no liability on the part of Community Living from the making of any repairs, alterations, additions, or improvements to the premises or any portion of the building in which the resident student is located. SOLICITATION

Any personal or commercial solicitation (including door to-door sales and distribution of advertisements) within the residence halls is prohibited.

FURNISHINGS

The college provides each resident with a bed, mattress, desk and chair, drawer space, hanging clothes space, and in some cases, bookshelves. Residents are responsible for maintaining the condition of the furnishings in their rooms and in any communal areas such as lounges and lobbies.

Residents are permitted to arrange furniture within a room in any reasonable manner, providing that all furniture is placed in its original location at checkout, within certain guidelines below:

- All college furniture must remain in the room and be reset to check-in configuration upon check-out.
- All college furniture must remain assembled.
- Any furniture that is not supplied by the college must be fire resistant. A permanent manufacturer's label must be affixed to every item of personal furniture.
- Any furniture intended for indoor use is not permitted outside. Furniture must not block access to doors and windows.

College staff will be responsible for determining whether a structure is bar-based on the condition in which it has been found. Anyone found in violation of this policy will be required to remove the structure.

ROOM CHANGES

We acknowledge that conflict may arise in a shared, living environment. If a concern is present, residents should utilize our trained staff members to help them work towards a resolution. If a resolution cannot be found, a room change may be explored.

Residents may not change rooms without the written approval from a professional staff member from the Office of Community Living. Room and roommate change requests may be made to the Office of Community Living beginning on the third week of each semester. It is important to note that room changes are limited by available spaces and cannot be guaranteed.

Residents must first speak with their Resident Advisor or Community Director before requesting a change. Mediation may be deemed necessary prior to a room change as there will be a period of time where all residents of a space will continue to reside together.

It is the responsibility of the student who initiates the room change to inform their roommate that they would like to move out. Residents who are approved for a room change must make the move within 48 hours after receiving approval. The move entails checking out of the originally assigned room with the Resident Advisor, completing the room condition report, and returning the room key to the Office of Community Living. Residents who do not follow this procedure may be charged a fee and be subject to disciplinary action by the Office of Student Conduct.

If a student is going through the Accountability process, they may be reassigned or removed from housing as a result of a sanction.

ROOMMATE AGREEMENTS

It is Community Living's belief that proper communication will lead to a more seamless, hospitable living environment. Therefore, all residents must complete a roommate agreement between all roommates/ suitemates/ apartmentmates of a residential space. Roommate Agreements can be completed on your respective community Engage page (e.g. Joseph-Reynolds Community Engage page). Prior to a roommate mediation, it is expected that a Roommate Agreement will be completed. It is with a Roommate Agreement and efforts through Mediation that will result in either cohabitation or, in some cases, movement of one or more individuals from a residential space.

ROOM CONDITION REPORTS (RCR)

Residents have the opportunity to thoroughly inspect their assigned rooms and shared space (as appropriate) and report any additional existing conditions within 24 hours of check-in. Proper completion of the RCR will prevent the student from incurring charges for pre-existing damages. Residents are responsible for immediately reporting any damages to their Resident Advisor and completing Work Requests that may occur during the academic year.

MOVING OUT

Prior to a resident moving, the Community Living staff enter and assess the room's current condition.

When checking in, each resident is strongly encouraged to make their own assessment before fully unpacking. The resident will have an opportunity to review the condition with their RA within the first few days after move-in. The RCR will be valuable to both the staff and the resident upon the resident's check-out and will be reviewed in the Damage Assessment process.

When a resident officially checks out of a residential space, the RA will review the condition of the room with the student present. This is the opportunity for the resident to discuss or report any additional damage that may have occurred while they were assigned in the space. A second review will take place with the RA's supervisor after the student departs. It is possible that damages can be found following a student's departure. To limit the concern of having to pay a fee, it is important for the student to be sure to schedule their check-out with a RA and not leave.

DAMAGES

Failure to respect FSC property and any other property that is not your own is prohibited. Individual residents will pay for any charges assessed for damages in their room and shared spaces. All residents may be responsible for floor or community damages and will equally pay for any charges to the suite, apartment, house, floor, or community.

Damage charges will be assessed to student accounts at the end of the academic year or upon vacancy of the space and may include any community damages from throughout the year, as well as any damage or cleaning charges assessed to residents after vacating their assigned residence.

When public areas are vandalized or College property is damaged, a group of residents, a floor, or a building where residents live in close proximity to the damage will be assessed fees for the damages if no one resident or group of residents accepts responsibility. Each time an incident occurs, a Resident Advisor, Community Living staff member, or Facilities Maintenance staff member will document it.
