

# FILM STUDIES

For more information about applying to FSC as a communication major, please go to [fsouthern.edu/admissions](https://fsouthern.edu/admissions)

**Prepare to make movies and study the theories and history behind them. Write about films and critique them in a group setting. See your visions on the big screen.**

In the film studies career track, you will gain the skills and experience necessary to achieve your career dreams in this exciting and ever-changing industry. Upon graduation, you will be prepared to design and create new media, equipped with important skills like screenplay writing, film editing, graphic design, and post-color design. In our on-campus media labs, students are exposed to every facet of the film industry and work with the latest software and technology in the production process.

## TOP REASONS TO CHOOSE FSC FOR FILM STUDIES:

- Complete professional internships before graduation in the nearby major markets of Tampa and Orlando, both within easy driving distance from campus.
- Access Florida Southern's film library, which contains over 4,000 titles.
- Draw on the extensive experience of our faculty members who will work with you in studio production, print publications, and online media.
- Work in our media labs equipped with the newest developments in film technology.
- Develop a distinct advantage through presentations at state and national conferences. Share your film masterpieces with a wider audience and network with industry-leading film professionals.
