Residency Requirement

Florida Southern College has a four-year residency requirement. However, we do recognize that there are some cases when a student should be considered for exemption. Approved reasons for consideration on an exemption from the residency requirement are:

- To be at least 23 years old prior to the semester you are requesting to live off campus
- To be married or have custodial children
- To live with your custodial relative in their primary residence, within a 30 mile radius of the campus
- Will be a part-time student (less than 12 undergraduate hours) for the remainder of college career
- Have fulfilled the four-year campus residence requirement (all at FSC)

Students who meet one of the criteria must complete an "Off-Campus Request Form" which is available on the Office of Community Living website. *Any student may complete the form, but must await approval **BEFORE** signing an off-campus lease.* Denial of the off-campus housing request means that students are still considered a part of the campus residential community.

Rights and Responsibilities of Residential Students

As a campus residential community member, the following a student can expect and has both a responsibility for and the right to:

- Read and study free from undue interference in one's room (unreasonable noise and other distractions inhibit the exercise of this right)

- Expect that a roommate will respect one's personal belongings
- A clean environment in which to live
- Freely access one's room and facilities without pressure from a roommate
- Personal privacy
- Host guests who respect the rights of the host's roommate(s) and other community residents
- Address grievances (Office of Community Living staff is available for assistance in settling conflicts)
