

ACCOUNTING

WHEN YOU CHOOSE TO STUDY ACCOUNTING, YOU'LL LEARN TO ANALYZE FINANCIAL RECORDS TO HELP COMPANIES AND INDIVIDUALS ALLOCATE AND MAXIMIZE THEIR RESOURCES.

Having an understanding of assets, liabilities, and income lets you make informed business decisions — making you an integral player in any organization.

BUILD A STRONG FOUNDATION

With an emphasis on ethics, your **B.S. in Accounting** will cover essentials such as taxation, management accounting, financial accounting, auditing, and accounting information systems. While these classes are intended to prepare you for professional certification, this degree also serves as a foundation for graduate study in accounting, or law, or can launch you into a career in business administration.

LEARN FROM EXPERT FACULTY

Several of our faculty members have been recognized as FICPA Outstanding Educators — more than any other college in Florida. They are dedicated to your success, sharing insights from their years of experience, and also involving you in their research. Together, you'll examine accounting topics as they relate to free enterprise and may present your paper at a conference or submit it for publication, perhaps in FSC's *Journal of Accounting and Free Enterprise* (JAFE).

INTERNSHIPS GUARANTEED

We know how important it is to gain work experience before graduation. Without it, students often find it hard to get their "foot in the door." That's why we promise you an internship. Accounting students have interned with the "Big Four" accounting firms and a diverse range of organizations including Publix, NASA, Lockheed Martin, and the Detroit Tigers.

PROFESSIONAL CERTIFICATION

In addition to the chance to gain resume-boosting experience, we make it easy to pursue the path of professional licensure and an advanced degree.

CERTIFIED PUBLIC ACCOUNTANT (CPA) — Our program prepares you to complete the 150-hour academic requirement to become a CPA, and also includes a CPA Review Course to help you prepare for the exam.

CERTIFIED MANAGERIAL ACCOUNTING EXAMINATION (CMA) — If your goal is to become a company manager and make financial decisions, you might consider sitting for the CMA exam after your junior year.

MASTER OF ACCOUNTANCY (MACC) — Through our Early MACC program, Florida Southern offers you a chance to earn a master's degree with an additional 30 hours (1 year) of coursework.
