

## Pre Health Planning Worksheet: 3 Year Plan

All plans are unofficial. Final schedules may vary based upon many factors including, but not limited to, course availability, exam scores, prerequisite completion, degree requirements, professional school needs, & students interests. It is suggested that students obtain a minimum Math SAT of >590 or Math ACT of >25 to take CHE 1111 & BIO 1500 consecutively during their first semester. All pre-health students should discuss plans with both their academic advisor and a pre-health advisor each semester.
